· No Contracts

· No Set-Up Fees

· No Hassles

Jump Aboard...connecting to WI-FI is easy:

1. Configure your laptop and adapter
 - Select your wireless adapter
 - Set the ESS ID to: STSN
 - Turn Encryption type to: Disabled
 - Set WLAN "type" or "mode" to: Infrastructure or 802.11b
 - DHCP for your wireless adapter should be ON
 - Set the TCP/IP properties for your wireless adapter to: Obtain an IP address automatically
2. Reboot your laptop and launch a browser

Once the settings have been entered, reboot your laptop and launch your browser. Follow the on-screen instructions for using your credit card to begin using *NET WAVE* Wireless High-Speed Internet Access, powered by STSN.
